With a background in computer science, and as a former social scientist ( MA from Maastricht University and PhD from University of Twente ) and research engineer, I develop FileMaker applications for companies, NGOs, and research institutes.

## Skills

- Claris certifications: AI fundamentals I and II, Claris FileMaker Server Administrator Associate and Administrator Specialist, and App Developer for Claris FileMaker Pro Expert.
- I have worked with the Claris Office Suite in the 1990s, and over subsequent years with FileMaker 5, 7, 13, 16, 19 and 2023. I specialized in WebDirect.
- Language skills: Dutch ( Native ); English ( Professional working proficiency ); German ( Limited working proficiency ); Swedish ( Limited working proficiency ); French & Spanish ( Elementary proficiency )

## Relevant work experience

- Aug. 2021 - present. Founder and owner of RubberBootsData ÖU

RubberBootsData is registered in Estonia under number 16558603 I use it to sell my FM development services.

Role: pro-bono and subcontracting projects for Tropical Health Alliance Foundation and CamelCase data. See recommendations in LinkedIn

- Sept. 2014 - Jan. 2022. Research engineer at Lund University, Dept. Economic History  
Role: In-house developer at Lund University, ( FM 13 and 16, WebDirect ). Starting from a spreadsheet, I developed and maintained a relatively small but complex research database. Besides development work, I also trained and supervised a small team of data entry workers, and assisted with the management of the research project, including methodological advice, organizing meetings, hiring personnel and project reporting.

- Jan. 2002 - Dec. 2004. Founder and owner of Index Society

Index Society produced software and databases for qualitative research.

Role: developer of a FM ( 5 and 7 ) annotation-database for historical research. Promotion and acquisition.

- Nov. 1997 - Feb. 2024. During my academic career, I have developed FileMaker and MS Access databases and used other tools to manage and analyze my research data.
